

SAMIUL ISLAM

ICT Student | Future Software Engineer | AI Enthusiast

Email: samiyoulmiah@gmail.com | GitHub: github.com/SAMIUL-01

WhatsApp: +880 1927-554237 | Location: Bangladesh

PROFILE

B.Sc. (Engineering) student in the ICT Department at Mawlana Bhashani Science and Technology University. Passionate about Software Development, Artificial Intelligence, Web Development, and Graphic Design. Enjoys learning new technologies and building practical projects that solve real-world problems. Currently improving programming skills and working on AI-based applications.

EDUCATION

B.Sc. in Information and Communication Technology (ICT)

Mawlana Bhashani Science and Technology University (MBSTU) — Current Status: Undergraduate Student

SKILLS

Programming: C, C++, Java

Tools: VS Code, Git, GitHub

Design: Canva, Basic Graphic Design

Currently Learning: Python, Artificial Intelligence, Machine Learning

PROJECTS

- Obstacle Avoiding Car Simulation — sensor-based obstacle detection and navigation logic.
- Smart PDF Reading Assistant (In Progress) — AI-powered assistant for reading and summarizing PDFs.
- Personal Portfolio Website — built and deployed using GitHub Pages.
- AI Traffic Management System (In Progress) — AI-based system to optimize traffic flow.

ACHIEVEMENTS

- Successfully created and deployed personal portfolio using GitHub Pages.
- Continuously learning Software Development and Artificial Intelligence.
- Building academic and personal projects to strengthen practical skills.

INTERESTS

Artificial Intelligence • Software Development • Web Development • Graphic Design • Open Source

GOAL

To become a skilled Software Engineer and AI Developer by continuously learning, building real-world projects, and contributing to open-source communities.
